

Schedule of Credentialing Fees 2011
American Balint Society

Standard Fees for credentialing of Balint Group Leader Candidates are currently as follows:

For a single leader candidate who requires supervision
\$900.00 per year (six sessions) paid to the American Balint Society

For co-leader candidates in supervision together with the same supervisor
\$1,425.00 per year (six sessions) paid to the American Balint Society

Fees for supervision should be paid as an annual sum, preferably at the beginning of supervision for the year, but in any case by October 1 of any year in which supervision has taken place. If you or your institution cannot pay a yearly fee in advance, please contact the Treasurer of the ABS to make other arrangements.

For a candidate who is co-leading with a credentialed leader and does not require supervision
\$300 total for the credentialing process paid to the American Balint Society,
payable \$150 at time of application and \$150 prior to final credentialing Intensive

Checks should be made out to the American Balint Society and sent to the Society Treasurer, with accompanying notation of the supervisor's name, supervisee's name and date of sessions for which payment is being made or with name of candidate, if supervision not required. Please also indicate who should receive a receipt acknowledging payment and their address.

A candidate cannot receive final credentialing as a Balint leader until all fees are paid in full and the Council of the ABS votes favorably on his/her credentials, as presented by the Credentialing Coordinating Committee (CCC).
